Re: Mary Deilman

To Whom It May Concern:

I have had the pleasure to work with Mary Deilman over the past couple years. Mary performed a work flow and needs analysis of our practice through Accent Health to assess our readiness for EHR. During her time with our office, she worked closely with our staff and physicians including myself. Mary proved to be very knowledgeable and resourceful. With her professional and personal skills she easily navigated through our office gaining everyone's trust and cooperation.

Mary deliver an accurate and useful assessment of our practice to help us move forward. She has continued to assist us with other technical and business needs. I can honestly recommend Mary without reservation. I am sure you would find her to be an asst.

Sincerely,

Gaynel Sheldon
Practice Manager
